

Newsletter from Pivab – Innovators in Automatic Rewinding

Automatic Single Face rewinder for Portugal.

Pivab has installed a fully automatic rewriter at Litocartao in Portugal. The rewriter has special features such as roll weighing and labeling of the finished rolls. This was a key feature for Litorcatao to ensure quality and tracking of the rolls.

Fully automatic rewriter for single face corrugated board.

First Pivab rewriter in Italy.

Pivab is now manufacturing the first automatic rewriter for a company in Italy, Ondulati Santerno, which specializes in packaging solutions made from single face corrugated board. The machine is equipped with automatic knife and automatic tape positioning.

Bib manufacturing line for Finnish company Fatex Oy.

The bibs for the elderly care are manufactured from two layers of paper with a layer of PE in between. The layers are welded together. A pocket is also welded and the neck collar is die cut before the material is folded lengthwise. The material is then sheeted with a crosscutting knife. Thereafter the sheets are stacked in a pile and transferred through a

plastic wrapper and a shrink tunnel before they are packed in boxes. The line is in the final testing phase and has a maximum production capacity of about 8 products/sec.

Semi automatic rewriter for Poland.

The company BART in Poland has ordered a 2.8m semi automatic rewriter for single face corrugated board. The machine will be installed in the end of this year.

Pivab Machinery is a Swedish company that specializes in manufacturing rewinders for single face corrugated web. The company was founded in 1983 and has a long tradition of product innovation and machine design according to customer requirements.

These special machines for the single face market, whether used in traditional corrugated or laminating production environments, are easily installed with basic connections to lines dedicated to single face operations or at the end of existing corrugators.

The Pivab rewinders offer good opportunities to production cost savings in the single face market.
