

Fully Automatic Rewinder - for small roll production

Pivab's Fully Automatic Rewinder for small SFC roll production

Faster production speed

Pivab's fully automatic slitter rewriter is designed for rewinding small rolls at high speeds.

In Line Winder - Stand alone Rewinder

The machine can be placed "In Line" with a corrugator or stand alone as a Rewinder with a roll stand.

Enhance work environment

The Rewinder is designed to be operated by one worker. Automatic functions for gripping of the web, taping, ejecting, etc enable low workload and fast cycle times.

Shear cutting knives

The machine uses shear cutting knives for edge trim and length cutting. The number of knives can be adapted for the customers need.

Cycle Time
20 seconds
(25 meter rolls)
